PROFILE

I am a front-end developer with an energetic approach to work and a strong desire to learn. I have experience in developing web applications using HTML, CSS, SCSS, and JavaScript. I am always eager to explore new technologies and development methodologies.

EDUCATION

2010 - 2015

UZHHOROD NATIONAL UNIVERSITY

- Specialist in International Law

WORK EXPERIENCE

2023 - PRESENT

Company name: ALLO

HTML developer

- Developed and maintained promotional and landing pages for products.

- Collaborated with design and marketing teams to implement new features.

2022 - 2023

Web Development Training and Project

- During this time, I studied web development and created a website for the charity organization Stiyka Natsia (https://stiykanatsia.org/). Using HTML, CSS, and JavaScript, I developed a functional and user-friendly website, including interactive elements and a donation system.
